### **Author's guide:**

Scope of the journal encompasses all aspects of ergonomics including occupational health, safety, accident prevention, cognitive psychology, statistical modeling, industrial design, human computer interactions, case studies from industries etc. All other relevant areas (apart from aforesaid topics) are also welcome for International Journal of Humanizing Work and Work Environment (IJHWWE). During manuscript submission, authors have to submit a write-up (maximum 150 words) briefing the relevance of the manuscript's content for the IJHWWE.

Screening of the manuscript will be based on following criteria and authors are encouraged to fulfill these criteria for their manuscript.

- relevance to the scope of the journal,
- clear research gap identification,
- problem statement,
- rationale behind conducting research for that identified problems,
- relevance of the outcome of the research to industry or academia or society, etc.

Manuscript should be written in 'English' language as per the guidelines provided in 'manuscript template' document and would be formatted as per the template. Soft-copy/ electronic copy of the formatted manuscript, both in PDF (.pdf) and Word file(.doc/.docx) manuscript is needed to be submitted to the Editor in Chief through email ID: [ijournalhwwe@gmail.com](mailto:ijournalhwwe@gmail.com) .
